What is NARCAN[®] Nasal Spray?

NARCAN[®] Nasal Spray contains an ingredient, Naloxone Hydrochloride which is a prescription medicine used for the treatment of an opioid emergency, or a possible opioid overdose with signs of breathing problems and severe sleepiness or not being able to respond in adults and children.

- NARCAN[®] Nasal Spray is to be given right away by a caregiver and does not take the place of emergency medical care
- Get emergency medical help right away after the first dose of NARCAN[®] Nasal Spray, even if the person wakes up.

**Please see continued Indication and Important Safety Information on reverse side.
Please see accompanying full Prescribing Information in the use of this Product.**

IMPORTANT SAFETY INFORMATION

What is the most important information I should know about NARCAN® Nasal Spray?

NARCAN® Nasal Spray is used to temporarily reverse the effects of opioid medicines. The medicine in NARCAN® Nasal Spray has no effect in people who are not taking opioid medicines. Always carry NARCAN® Nasal Spray with you in case of an opioid emergency.

1. Use NARCAN® Nasal Spray right away if you or your caregiver think signs or symptoms of an opioid emergency are present because an opioid emergency can cause severe injury or death. Signs and symptoms of an opioid emergency may include:
 - unusual sleepiness and you are not able to awaken the person with a loud voice or rubbing firmly on the middle of their chest (sternum)
 - breathing problems including slow or shallow breathing in someone difficult to awaken or they look like they are not breathing
 - the black circle in the center of the colored part of the eye (pupil) is very small, sometimes called “pinpoint pupils” in someone difficult to awaken
2. Family members, caregivers, or other people who may have to use NARCAN® Nasal Spray in an opioid emergency should know where NARCAN® Nasal Spray is stored and how to give NARCAN® Nasal Spray before an opioid emergency happens.
3. Get emergency medical help right away after using the first dose of NARCAN® Nasal Spray, because the effects of NARCAN® are temporary. The effects of the overdose can return in several minutes, after the NARCAN® has worn off. Rescue breathing or CPR (cardiopulmonary resuscitation) may be given while waiting for emergency medical help.
4. The signs and symptoms of an opioid emergency can return within several minutes after NARCAN® Nasal Spray is given. If this happens, give an additional dose using a new NARCAN® Nasal Spray every 2 to 3 minutes and continue to closely watch the person until emergency help is received.

Who should not use NARCAN® Nasal Spray?

Do not use NARCAN® Nasal Spray if you are allergic to naloxone hydrochloride or any of the ingredients in NARCAN® Nasal Spray.

What are the ingredients in NARCAN® Nasal Spray?

Active ingredient: naloxone hydrochloride
Inactive ingredients: benzalkonium chloride (preservative), ethylenediaminetetraacetate (stabilizer), sodium chloride, hydrochloric acid to adjust pH, and purified water

What should I tell my healthcare provider before using NARCAN® Nasal Spray?

Before using NARCAN® Nasal Spray, tell your healthcare provider about all of your medical conditions, including if you:

- have heart problems
- are pregnant or plan to become pregnant. Use of NARCAN® Nasal Spray may cause withdrawal symptoms in your unborn baby. Your unborn baby should be examined by a healthcare provider right away after you use NARCAN® Nasal Spray.

- are breastfeeding or plan to breastfeed. It is not known if NARCAN® Nasal Spray passes into your breast milk.

Tell your healthcare provider about the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

What are the possible side effects of NARCAN® Nasal Spray?

NARCAN® Nasal Spray may cause serious side effects, including:

- Sudden opioid withdrawal symptoms. In someone who has been using opioids regularly, opioid withdrawal symptoms can happen suddenly after receiving NARCAN® Nasal Spray and may include: body aches, fever, sweating, runny nose, sneezing, goose bumps, yawning, weakness, shivering or trembling, nervousness, restlessness or irritability, diarrhea, nausea or vomiting, stomach cramping, increased blood pressure, and increased heart rate.
- In infants under 4-weeks old who have been receiving opioids regularly, sudden opioid withdrawal may be life-threatening if not treated the right way. Signs and symptoms include: seizures, crying more than usual, and increased reflexes.

How should I use NARCAN® Nasal Spray?

- Use NARCAN® Nasal Spray exactly as prescribed by your healthcare provider.
- Each NARCAN® Nasal Spray contains only 1 dose of medicine and cannot be reused.
- Lay the person on their back. Support their neck with your hand and allow the head to tilt back before giving NARCAN® Nasal Spray.
- NARCAN Nasal Spray should be given into one nostril. NARCAN® Nasal Spray should only be used in the nose, in accordance with the Patient Counseling Information included in the full Prescribing Information for NARCAN® Nasal Spray.
- If additional doses are needed, either because the patient does not respond or has difficulty breathing again, use another NARCAN® Nasal Spray in the other nostril.

How should I Store NARCAN® Nasal Spray

- Store NARCAN® Nasal Spray at room temperature between 59°F to 77°F (15°C to 25°C), NARCAN® Nasal Spray may be stored for short periods up to 104°F (4°C to 40°C).
- Do not freeze NARCAN® Nasal Spray
- Keep NARCAN® Nasal Spray in its box until ready to use. Protect from light.
- Replace NARCAN® Nasal Spray before the expiration date on the box.

Keep NARCAN® Nasal Spray and all medicines out of the reach of children.
